

**EURECA • PRO**  
EUROPEAN UNIVERSITY

# DOCTORAL SCHOOL

Are you a PhD student working on climate change, sustainability, circularity, or responsible consumption and production? Join our vibrant international network through the **EURECA-PRO Doctoral School** - a unique opportunity to connect, learn, collaborate, and grow within a European alliance committed to shaping a sustainable future.

**Boost your research potential** through interdisciplinary training in advanced research skills, Responsible Consumption and Production (RCP), and European cultural studies, while benefiting from access to shared facilities across EURECA-PRO partner universities, including laboratories, databases, software tools, and libraries. **Expand your international network** through the PhD Journey mobility programme, EURECA-PRO conferences, lecture series, and summer schools, building meaningful connections with researchers across Europe and enhancing the visibility and impact of your work. **Earn a EURECA-PRO Doctoral School Certificate** upon completing your doctoral studies, recognising your active engagement in international research training and events. **Enjoy exclusive opportunities** with priority access to EURECA-PRO activities and the possibility of earning a joint, double, or multiple doctoral degree within our European university alliance.

## What can you expect? Our highlights

### **EURECA-PRO PhD Journey**

Experience an immersive international experience hosted by different partner universities, focused on deepening your research, enhancing skills, and networking around key themes.

### **Young Researchers Colloquium**

Join this vibrant event in historic Freiberg, featuring research presentations, networking, workshops, and field visits - all focused on Responsible Consumption and Production.

### **Online PhD seminars**

Present your work, exchange ideas, and receive valuable feedback in an interactive, international academic community.

### **Transversal Skills Week**

Take part in hands-on workshops where you will strengthen essential skills like communication, project management and leadership - all in a dynamic, global environment.

## Discover more

Further enrich your doctoral experience through Innovation and Entrepreneurship courses, the EURECA-PRO Introductory Lecture, language courses, the International Conference on RCP and much more - all accessible via the EURECA-PRO Learning Management System, your digital platform for courses, resources and collaboration.

## How to apply

Ready to take the next step in your research career? Start by discussing your interest with your supervisor and reaching out to your local EURECA-PRO doctoral coordinator. Discover more details about our Doctoral School and how to apply on the EURECA-PRO website.
